

DEPOSIT WITHDRAWAL NOTICE

Notice date: 2/1/2026

Account: Susan Young

Account number: CUS-3011000

Service address: 100 Master Test Street

This notice explains a withdrawal from your security deposit that was applied automatically by the system. Under your account terms, when sewer charges remain unpaid for an extended period, the district may apply funds you have on deposit toward the balance you owe.

On 05/01/2026, your account was marked as 60+ days late on the continuous delinquency timer (you had reached 60 day(s) while an amount remained due). This threshold is tied to 60+ calendar days on that timer, which is the district's configured trigger for deposit withdrawal. The unpaid balance was measured from your billing position as of the last bill print / anchor reference date of 03/02/2026 (the date shown reflects when charges were last established on your bill before this action).

Because those conditions were met, an amount of \$363.25 was taken from your security deposit and applied to your outstanding balance in the same way a payment would be applied (for example toward past due amounts, current sewer charges, tax code surcharges, PUC surcharge, and late fees, in the order configured for your account).

Application detail from the ledger for this event: Late fees: \$10.00; Past due amount: \$366.26; Current amount due: \$160.37; Puc surcharge: \$7.99; Tax Codes: \$9.27

At the time of this withdrawal, the total account balance this action addressed was approximately \$363.25. Your security deposit on file immediately before this withdrawal was \$441.13, and after the withdrawal the remaining deposit on file is \$77.88.

You are required to restore your security deposit to the full required on-file amount. Based on the balance held before this withdrawal, that target is \$441.13. To return your deposit to that level, you must pay approximately \$363.25 (plus any future bill amounts when due). Until the deposit is replenished, your account may not meet the district's deposit requirements for continued service.

This notice is for your records. If you believe this withdrawal was applied in error, contact the office with your account number and the notice date above.
